## **P R E F A C E**

This book gives break up of Foreign Loans and Grants (Plan & Non-Plan) provided to Federal Government, Provinces and Local Bodies. The detail of loans and grants have been given project-wise as well as lending country/agency-wise.

External resources mainly comprise (i) loans and credits from friendly countries and specialized international agencies and (ii) grant assistance under specific country programmes. The Foreign Aid (Loans, Credits and Grants) is broadly categorized as project aid, commodity aid and other aid.

Project aid generally takes the shape of foreign loans and grants for procurement of project equipment and supply of services etc.

Commodity aid is a significant component among the different types of aid received by Pakistan. It is a tied aid, utilized for import of petroleum products, agriculture goods, raw materials, equipment, fertilizers, chemicals and consumer goods. In some cases untied utilization is allowed as per country's requirement. Commodity aid not only stabilized foreign exchange reserves but also generates rupee funds which augment country's rupee resources to meet its development needs.

The assistance under "Other Aid" comprises loans and grants from non-traditional sources generally by way of balance of payment support.
