

## AGRICULTURE

HIGHLIGHTS	Unit	2015-16 (P)
<b>I. Agriculture Production</b>		
Wheat	000 Tons	25,504
Rice	000 Tons	6,801
Maize	000 Tons	5,050
Gram	000 Tons	304
Sugarcane	000 Tons	65,186
Cotton	000 Bales	9,917
Meat	000 Tons	3,873
Milk	000 Tons	43,818
Fish	000 Tons	788
<b>II. Other Indicators</b>		
Cropped Area	Million Hectare	22.7
Water Availability	Million Acre Feet	133.0
Fertilizer Offtake	000 Nutrient Tons	3,699.3
Improved Seeds Distribution	000 Tons	473.2
Credit Disbursed	Rs. Billion	598.3
Production of Tractors	Numbers	33,883

P : Provisional

## Note:

1. Total Area Reported is the total physical area of the villages/deh, tehsils or districts etc.
3. Forest Area is the area of any land administered as forest under any legal enactment dealing with forests. Any cultivated area which may exist within such forest is shown under heading "cultivated area".
4. Area Not Available for Cultivation is that uncultivated area of the farm which is under farm home-steads, farm roads and other connected purposes and not available for cultivation.
5. Culturable Waste is that uncultivated farm area which is fit for cultivation but was not cropped during the year under reference nor in the year before that.
6. Current Fallow (ploughed but uncropped) is that area which is vacant during the year under reference but was sown at least once during the previous year  
Cultivated Area is that area which was sown at least during the year under reference or during the previous year.  
Cultivated Area = Net Area sown + Current Fallow.
7. Net Area Sown is that area which is sown at least once during (Kharif & Rabi) the year under reference.
9. Area Sown more than once is the difference between the total cropped area and the net area sown.
10. Total Cropped Area means the aggregate area of crops raised in a farm during the year under reference including the area under fruit trees.

Notes :

\*\* : Figures are computed using actual population of Livestock Census 2005-06

\*\*\* : Figures are computed using estimated Livestock population of 2006-07 using inter census growth rate of 1996 and 2006

Note : The figures for livestock product for the year 2015-16 were calculated by applying production parameters to the projected population of 2015-16
